

Coming Soon: Team Georgia Marketplace Will Replace Vendor Registration System

In January 2009, the State of Georgia will implement Team Georgia Marketplace, a new electronic procurement system. In addition to enhancing and streamlining the procurement process, Team Georgia Marketplace will replace the Vendor Registration System (VRS) to provide added value to our suppliers (see benefits below). To assist suppliers with registration in the new system, we will be hosting regional supplier fairs in late fall; event specifics will be announced in future newsletters. Suppliers must register in the new system in order to receive solicitation notifications after January 20, 2009.

If your email address and contact information in the VRS is current, you'll receive an invitation to register in the new system via email. We encourage suppliers to update their information in VRS to ensure that they receive all Team Georgia Marketplace communications. Watch for updates at www.statepurchasing.doas.ga.gov.

Supplier Benefits through Team Georgia Marketplace

As bidders, you will:

- Maintain contact information
- Receive automated notifications of public solicitations for your NIGP codes
- Respond to solicitations online
- Review event history
- Review award history

As current suppliers to the State of Georgia, you will:

- Perform all of the bidder activities
- Research your purchasing activity and history
